

**WILLIAMSPORT ENTERTAINMENT COMPLEX,
WILLIAMSPORT, PENNSYLVANIA**

The complex is a nine-screen, 35,000 square foot cinema that is part of the CBD Revitalization Project in Williamsport. The exterior is constructed with smooth and split-faced concrete masonry units and decorative pre-cast concrete panels with lobby windows and doors constructed of aluminum and glass. The cinema is designed to be architecturally compatible with neighboring structures. The long West Fourth Street facade is proportioned to reduce the massing of the wall and provide an appropriate human scale consistent with the existing storefronts that previously occupied the site.
