

**THE JOHNSON RESIDENCE**  
121 OAK POINTE CIRCLE  
STATE COLLEGE, PENNSYLVANIA

Built on one level to avoid stairs, this 4 bedroom, 2 1/2 bath, retirement home includes a luxurious master bedroom suite with a master bath, a dressing area, and large walk-in closets for each of the owners. The main living/dining/kitchen is one large open space with a high cathedral ceiling, skylights, and a massive stone fireplace. Via several sliding glass doors, it opens to a large covered patio and screened-in porch facing south at the rear of the house. Exterior materials were chosen to be compatible with the architectural vocabulary of the neighborhood and to minimize any necessary maintenance.
