

ADDITION TO THE GEISINGER MEDICAL CLINIC

200 SCENERY DRIVE
STATE COLLEGE, PENNSYLVANIA

The building addition to the Geisinger Medical Group's facility at Scenery Park is divided into two distinct medical uses. The first floor provides room to expand the spaces for the family medicine department from the existing building by providing seventeen exam rooms, offices for the medical staff, and a conference room and break area for physician and staff lectures and seminars.

The second floor is dedicated to an endoscopy suite with a surgical sterile area containing three procedure rooms designed as full size operating rooms, specifically for high definition colonoscopies. The design of the interior spaces begins at a waiting area for patients and families which has an excellent view of the nearby agricultural hills. Following the medical procedure, the patient is moved into one of seven post operation and anesthesia care rooms. A nurse's station is centrally located for the medical staff to observe the patients in the recovery rooms.

Owner: Geisinger Medical Group
Key Project Staff: Chris P. Musser, Joseph M. Springman
Completion Date: 2006
Construction Cost: \$4,200,000
Gross Floor Area: 15,800 Sq. Ft.
