

**KENLEE DENTAL OFFICE BUILDING,
BELLEFONTE, PENNSYLVANIA**

This building is all about the patient. The Owner's goal for the dental office was to provide a comfortable, calm environment that is soothing to the patient. The entrance has a large oversized canopy in front of the building to protect patients from the rain and invite them inside. The waiting room has a gas fireplace, wood floors, an interior water feature, comfortable furniture and other patient amenities.

Light and views to the outside were also important. The corridor to each patient care area is lit by natural light flowing down a view of the outside environment and provides plenty of natural light. The building includes an adjoining lease space.
