

**SMITH BARNEY OFFICE INTERIOR RENOVATION,
STATE COLLEGE, PENNSYLVANIA**

Located on two floors of an existing building, this complete interior renovation coordinated and expanded several existing multi-level retail spaces to construct the new Smith Barney offices. A new stairway links the first and second floor offices and a direct link to the Fraser Street Garage provides handicapped accessibility via the elevator to the second floor offices. Through an efficient floor plan design, the owner's challenging program was successfully incorporated into the very limited space available.
